that elicits shypersensitive response in plants. The encoding NA can be
used for imparting pathogen resistance to plants, by transforming a
plant with a wector containing the DNA and a pathogen inductible promoter.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          Claim 1; Column 31-34; 27pp; English.

mils sequence encodes a hypersensitive response elicitor from 
Evrinia chypanthemic, with a early, of 34,000. The elicitor pro-
blemonetable, has a glyrade content of over 184, and has no cyteine 
prediction of the content of the contenting problem of the 
resistance to plants with a publication of the classification. Just 
infections from to plant cells, by spraying, injection, lead 
infection or plant infection with recombinant becteria (non-
intentions to the heat plant, e.g. Experición coll ) expressing 
the contention as a biological control agent, or allow recombinant be-
elition as a biological control agent, or allow recombinant on 
the contention of the content
                                                                                                                                                                                                                             Imparting pathogen resistance to plants - with hypersensitive response elicitor polypeptide or protein
                                                                                                                                                                                                                                                                                                                                                   Beer SV,

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             Pred. Mo. is the number of results predicted by chance to his way a
score greater than or egual to the score of the result being printed,
and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        nucleic search, using sw model
